

## Tutoring Options

At ECRA we offer tutoring as part of the services we provide on Family Literacy Fridays. Classroom teachers work together by grade level to offer tutoring to students in need of support.

ECRA also encourages families to apply for SES tutoring services. Federal money supports this program through the Title I department. Students who have demonstrated the greatest academic need are identified to receive tutoring services every week. Many of the tutors are hired from our own teaching staff, providing even more consistency for the students!
