School Updates- March 27

EXTENDED SCHOOL CLOSURE

This morning, Governor Michelle Lujan Grisham announced that NM schools will continue to be closed through the end of this school year. Schools are instructed to develop Continuous Learning Plans to support our students in learning from home. At ECRA, we have already implemented online learning, with your help, for your children at home.

The steps we have taken together align with the expectations from the NM Public Education Department and we are off to a great start! We understand that this has been challenging at times, but our first priorities are to continue to provide instruction for your children and support for you. If you are in need of resources or information, please call the school and we will do everything we can to provide or direct you to any available sources of support. Despite working remotely, our goal is to maintain the continuity and the heart of our ECRA learning community- supporting our kids and families in every way possible!

Feel free to reach out to us through your child's teacher or calling the office (the lines are forwarded offsite to Brenda Garcia) if you have any questions.

Executive Director

A MESSAGE FROM OUR SAT COORDINATOR

As we plan for remote instruction during these uncertain times, we are in the process of creating a plan for all Student Assistance Team meetings and student interventions. All ECRA teachers began instruction this week. As we tackle a new method of learning and teaching, we will be discussing and determining the best way to conduct Student Assistance Team business.

Please continue to listen to calls from the school and read emails and updates from our website as we will reach out with SAT next steps through these avenues. Thank you for your patience, we will be in touch soon.

Best,
Breanna Nunez
