

We're so glad you're excited about **The Intel® Future Skills Sports STEAM Camp** in July! First Book is proud to work with Intel® to offer this FREE virtual enrichment opportunity for **girls starting 6th through 8th grade** in fall 2021.

Camp registration is now open!

Parents/Guardians can sign their child up for **ONE free camp session:**

July 27-29 @ 9am - 12pm PACIFIC

Registration is first-come, first-served until June 30, or when all spaces are filled.

Important Notes About Camp & Registration:

- **A parent or guardian must complete the camp registration on behalf of their child.** Even if campers will participate while on site at a school or community program, their guardian must register them.
 - After the parent/guardian registers their child, **First Book will contact the parent by phone** to verify consent for the child to virtually attend. Your registration is not complete until after this verification.
- [The online registration form](#) is available in **English and Spanish**. Campers must be able to **attend all days** of their chosen session for the full time.
- The camp is only **open to those who self-identify as girls** attending [First Book eligible](#) schools or programs.
- **Internet access and a connected device (laptop, tablet, smartphone, or Chromebook)** is required for student participation. Read more about technical requirements [here](#).
- Parents/guardians will receive a **FREE project kit in the mail** with materials their child will need during camp.
